You wake up buried underneath signature imported linens and gingerly lift your head from the down pillow. Flip through the channels on the high-definition flat screen tv and enjoy full cable access, or choose a movie on-demand, while ordering breakfast from room service. After you've nourished yourself, flip open your laptop and begin work at the in-room ergonomically designed workspace. Forgot your laptop? Don't worry, simply call the front desk for a complimentary iPad.

Get your blood pumping at the all-hours gym before refueling at the **New York Edition's** luxurious restaurant; The Clocktower. Chef Jason Atherton serves contemporary British cuisine, using only the finest available ingredients. Foodies understand that the provisions are only a small piece of the culinary experience, and will appreciate the striking view of Madison Square Garden and vibrant Dutch-inspired décor. If a full meal isn't what you are after, wet your palette at the intimate and elegant Lobby bar. Tourists will be enticed by the prime location minutes from Union Square, the Meatpacking District, Chelsea, Greenwich Village, Soho and Tribeca, but with amenities like these guests may choose to never leave.
